Immerse INTO THE WORLD OF SURFACE TREATMENT

Various types of surface treatments are available including stone washing, matte finishing, and PVD coating on all of the cutlery products. Don Bellini guarantees a fitting solution for almost anyone who wants to make a unique setting that stands out from the crowd.

In addition, combining different finishing techniques accentuates details and adds character to each piece.

STONE WASHING

The stone washing technique gives the pieces of cutlery an antique look. Each piece of cutlery will be unique after going through mechanical stone-washing treatment. The style goes hand in hand with Don Bellini's rustic porcelain collections such as De Terra, Night & Day, and Craftstone.

MATTE FINISHING

Add a contemporary touch to classic cutlery items by turning them into a matte finish. Every piece is beautifully curved.

PVD COLOUR COATING

Vibrant and Eco-friendly

Our vivid colourful coating finish gives a unique accent for a phenomenal table setting. The stylish PVD variants are available in gold, copper, blue, rainbow, charcoal and dark black.

The PVD coatings are completely **non-toxic** and **non-allergic**, which make it suitable for use in the food sector.
